

# PHOTOGRAPHY

Photography is such an amazing subject to study, and we are so fortunate to have it as part of the Creative Arts curriculum.

Photography is taught from year 8 onwards, so you'll have to be patient and wait a year to have it as part of your timetable, but if you're interested, then we run a photography club in year 7. The subject is offered as a GCSE option choice at Key Stage 4, and is really popular with students at Applemore. I love teaching Photography, and I'm continually amazed by the quality and creativity of the photographs that the students produce.

Photography is so much more than just taking photographs. You will learn about the technical and creative elements, the history of photography, how a camera works, how to use it to get the best photos and how to edit them on the computer.

Photography is a subject that really encourages you to appreciate your environment, to be inspired to see the world in a different way.

So, lots to learn, lots to do and lots of fun!
